# THEME 3

## Contemporary art in the heart of Paris

---

*Do you dream of seeing the world in a single visit, the world in a single (superb) building, the world “as it goes”?*

*Immerse yourself in the Bourse de Commerce - Pinault Collection, a five-century-old building whose architecture and 10,000 works by nearly 350 artists create a dialogue between heritage and contemporary creation, between past and present, between collections and visitors.*

*Borrowing its title from a philosophical tale by Voltaire, the exhibition “Le monde comme il va” (The world as it goes), bringing together a vast selection of works mainly produced between the 1980s and today (half of which are being exhibited for the first time), will take you on a tour of the planet from Paris, the city of Art par excellence.*
